Experience

Freelance Web Development for Educational Management Program November 2021 - Present

- Design and develop a multi-page website for a college preparatory program startup.
- Collaborated with Individual College Plan administrators to develop a unique and impactful website.

Service Experience and Operations Manager, Nordstrom April 2019 - June 2020

Clackamas, Town Center

- Lead 40+ employees through daily activities and planning meetings.
- Drove sales and convenient services to grow market share.
- Recruited, hired, taught and coached a large team on use of technology to ensure excellent customer service.
- Provided accurate inventory management and shrinkage control.

Service Experience Manager/Assistant Manager, Nordstrom May 2013- April 2019

Multiple Oregon Locations

Projects

Full Stack App with React and REST API

- Created a REST API utilizing Node/Express and Sequelize to perform CRUD operations on a school course database.
- Built a React front end with components that allows users to create a profile and interact with the database through GUI.

Data Pagination and Filtering Project

- Program that searches, filters and allows users to click through multiple pages of student profiles.
- Utilized Vanilla JavaScript to display and filter student data by selecting and manipulating DOM elements.

Personal Portfolio

- A dynamic personal website that highlights projects to date.
- Utilized Express/Node.js/Pug/JSON to build a modern portfolio using server side JS. Deployed on GitHub pages.

Technical Skills

Languages: JavaScript, CSS, HTML, SQL | **JavaScript Libraries:** NodeJS, jQuery, React | **Frameworks:** Express.js, Sequelize | **Version Control:** Git | **Development Tools:** Visual Studio Code, Chrome DevTools | **OS:** MacOS, Windows, Linux
